

PARACHUTE SYSTEMS

KEY FEATURES:

- Quick parachute deployment with integrated locking mechanism.
- Line retraction system for smooth descent.
- Lightweight, compact design suitable for various UAV platforms.
- Provides controlled descent even in challenging conditions.

CS-01

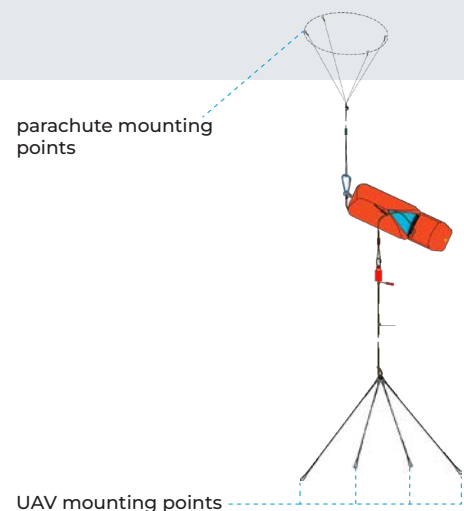

Parachute System

load capacity
8-13 kg

CS-02

Parachute System

load capacity
12-15 kg

Tech Specifications CS-01:

Parameter	Value
Payload weight	8-13 kg
System weight	590 g
Dimensions	255 × 120 × 60 mm
Wind speed near the surface	0-5 m/s
Descent speed	3-6 m/s

Tech Specifications CS-02:

Parameter	Value
Payload weight	12-15 kg
System weight	640 g
Dimensions	325 × 120 × 60 mm
Wind speed near the surface	0-5 m/s
Descent speed	3-6 m/s

What's Included:

Item	Quantity
Parachute system (CS-01 or CS-02)	1
Autorelease lock	1
Strap cutter	1
Transportation case	1
User manual	1
