

Battery capacity: 60 Ah

Max launches per battery cycle: up to 10

Tech Specifications:

Parameter	Value
Max UAV weight supported for launch	14 kg
Max UAV launch speed	18 m/s
Max towing force of elastic cords	400 kgf
Operating temperature range	-15 to +55 °C
Length of the launcher	4.53 m
Width of the launcher	1.44 m
Height of the launcher	1.25 m
Cart travel distance	2.4 m
Launcher rail angle relative to surface	13°
Total weight of launch system	76±3 kg
Remote control cable length	Up to 20 m
Battery nominal voltage	12 V
Battery capacity	60 Ah
Max launches per full battery charge	10
Setup time (2-person team)	15 min
Minimum launch interval	5 min
Number of personnel required for setup	2

What's Included:

Item	Quantity
SCL-1 ground-based launch unit	1
Ground control panel	1
Battery with charger and thermal case	1
Additional accessories kit	1
Wind deflector	1
Pegs	6
Spare parts kit	1
Operating documentation	1
Transportation case	1
